

ENSE 405 Project Check In

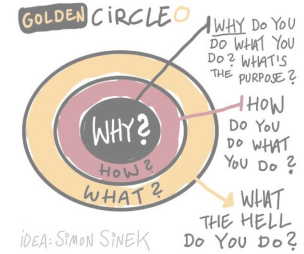

Drafting an Emerging Picture and Project Management

Brandon Clarke, Brian(Jiwoun) Kim
February 10, 2021

**ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND
PROMOTE LIFELONG LEARNING OPPORTUNITIES FOR ALL**

Why

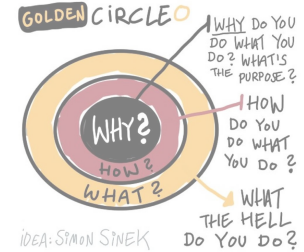

Why don't we have a tool for being exposed in

“qualified educational resources” on YouTube?

UN SD goal: 4.7 Quality Education. By 2030, **ensure that all learners acquire the knowledge and skills needed to promote sustainable development**, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development (<https://www.un.org/sustainabledevelopment/education/>).

How

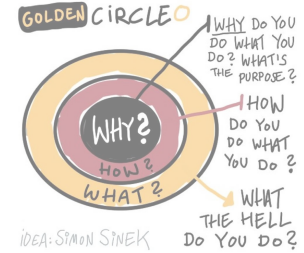

By using shareable links from Youtube,

the project would be implementing an application.

* It would be looking just like Twitter or Facebook, a kind of micro blogging service.

What

The project outcome would be building a tool that enables:

reviewing, sharing, recommending, and categorizing

[video tutorials] on Youtube.

Documents summary

1. Emerging Picture

- Implement similar user stories to what is already familiar
- Creating new asynchronous group tools

2. Business Case

- Cost to host the web server required to run our application
- Increased education in the community
- Increased ad revenue on YouTube

Documents summary

3. Stakeholder Analysis

- Learner
- Curator
- Creator
- Donator

4. Project Scope

- View and post videos
- Upvote or like post (videos, playlists, comments)
- Search and Categorize
- Repost to own page or community page

Documents summary

5. Requirements

- Functional Requirements according to project scope
- A web application implementing micro blog, such as Twitter or Facebook.
